Galvanised Scaffold Tube for Scaffolding with Elongation >20%

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Bythai Scaffolding
- Certification: SGS
- Model Number: BT01
- Price: $5-$18
- Packaging Details: In bundles
- Delivery Time: 7-15 days
- Payment Terms: TT/LC
- Supply Ability: 1000tons per month

Product Specification

- Name: Galvanised Scaffold Tube
- Application: Scaffolding
- Surface Treatment: Galvanised
- Diameter: 48.3mm
- Weight: 6.4kg/m
- Elongation: >20%
- Corrosion Resistance: Excellent
- Thickness: 3.2mm
- Highlight: **Galvanized Scaffolding Pipe**, **Metal Galvanised Scaffold Tube**

Our Product Introduction

Product Description

Product Description:

Galvanised Scaffold Piping is an extremely robust and reliable construction product, ideal for a wide range of applications. Featuring a 48.3mm diameter and excellent corrosion resistance, this galvanised scaffolding tube boasts a 420N/mm2 tensile strength, making it a strong and durable choice for scaffolding projects. The 6m length and 6.4kg/m weight of this product ensures it is easy to transport and install, making it the ideal choice for any construction project. Boasting excellent corrosion resistance and superior strength, this galvanised scaffolding tube is a reliable and robust choice for any scaffolding project.

Technical Parameters:

Parameter	Value
Name	Galvanised Scaffold Tube
Diameter	48.3mm
Yield Strength	245N/mm2
Elongation	>20%
Weight	6.4kg/m
Bending Radius	>2.5D
Material	Galvanised Steel
Tensile Strength	420N/mm2
Standard	EN39
Application	Scaffolding

Applications:

Bythai Scaffolding's Galvanised Scaffold Tube BT01 is constructed with galvanised steel, offering excellent corrosion resistance and thickness of 3.2mm. The SGS certified Galvanised Steel Scaffolding Tube is a perfect solution for a variety of indoor and outdoor applications, such as construction sites, engineering projects, workshops, warehouses, etc. It can be used to support heavy loads, make scaffolding systems and more. The Galvanised Scaffold Piping is easy to install, dismantle and transport, and comes with competitive pricing between $5-$18. It is packaged in bundles for easy delivery, with a supply capacity of 1000tons per month and delivery time of 7-15 days. The payment terms are TT/LC.

Customization:

Galvanised Scaffold Tube - Bythai Scaffolding

Brand Name: **Bythai Scaffolding**
Model Number: **BT01**
Place of Origin: **China**
Certification: **SGS**
Price: **$5-$18**
Packaging Details: **In bundles**
Delivery Time: **7-15 days**
Payment Terms: **TT/LC**
Supply Ability: **1000tons per month**
Yield Strength: **245N/mm2**
Thickness: **3.2mm**
Name: **Galvanised Scaffold Tube**
Standard: **EN39**
Application: **Scaffolding**
Bythai Scaffolding offers Galvanised Steel Scaffold Tube, Galvanised Steel Scaffolding Tube and Galvanised Metal Scaffolding Tube with the following features:

Brand Name: Bythai Scaffolding
Model Number: BT01
Place of Origin: China
Certification: SGS
Price: $5-$18
Packaging Details: In bundles
Delivery Time: 7-15 days
Payment Terms: TT/LC
Supply Ability: 1000tons per month
Yield Strength: 245N/mm2
Thickness: 3.2mm
Name: Galvanised Scaffold Tube
Standard: EN39
Application: Scaffolding

Support and Services:

Galvanised Scaffold Tube technical support and service includes the following:
Providing technical advice on product use and installation.
Assisting with the selection of products for particular applications.
Providing technical documents and drawings.
Resolving technical queries.
Providing contact details of approved scaffold erectors.
Assisting with product warranty and recall.

Packing and Shipping:

Galvanised Scaffold Tube packaging and shipping:
Each tube is wrapped in plastic with a metal band to secure the tube and prevent damage during transit.
Tubes are then packed in cardboard boxes with partitions inside, which are filled with foam or other cushioning material to protect them from impact during shipping.
The boxes are then strapped on a pallet and secured with shrink wrap for added stability.
The pallet is then loaded onto a truck or container for shipping.

FAQ:

Q1: What is Galvanised Scaffold Tube?
A1: Galvanised Scaffold Tube is a type of tube made of steel which has been hot-dip galvanised to prevent corrosion and increase durability. It is often used in scaffolding applications and other building projects.
Q2: What is the Brand Name of the Galvanised Scaffold Tube?
A2: The Brand Name of the Galvanised Scaffold Tube is Bythai Scaffolding. The Model Number is BT01.
Q3: Where is the Galvanised Scaffold Tube from?
A3: The Galvanised Scaffold Tube is from China.
Q4: What certifications does the Galvanised Scaffold Tube have?
A4: The Galvanised Scaffold Tube has SGS certification.
Q5: What is the price range of the Galvanised Scaffold Tube?
A5: The price range of the Galvanised Scaffold Tube is $5-$18. It is packaged in bundles and the delivery time is 7-15 days. Payment Terms are TT/LC and the Supply Ability is 1000tons per month.
