Scaffolding Climbing Platforms

This product is an ideal access ladder with hook to provide safe and secure access to any scaffolding. It is designed with a unique platform to provide a comfortable and secure working area.

The ladder is made of high quality aluminum or hot-dip galvanized material and comes with a robust structure and load capacity up to 150kg. It has a step height of 30cm and is available in sizes of 3m. It is also designed with a two-year warranty for quality assurance.

Support and Services:

Scaffolding Ladders technical support and service is provided to ensure that all customers are provided with safe and secure access to their scaffolding. Our technical support team is available 24/7 to answer questions, provide guidance and troubleshoot any potential issues with the ladders.

We also offer a comprehensive warranty on all of our scaffolding ladders. This warranty is designed to ensure that our customers can have peace of mind when using our products. It covers any defects in materials and craftsmanship for a period of 12 months from the date of purchase.

We take customer satisfaction seriously and are committed to providing the highest quality of service. Our team is always available to help you with any questions or concerns you may have. If you need any assistance, please do not hesitate to contact us.

Packing and Shipping:

Packaging and Shipping Scaffolding Ladders

Scaffolding ladders are large and heavy, so they must be packaged and shipped carefully.

Packaging

Before shipping, scaffolding ladders should be packaged properly to minimize the risk of damage during transit. First, wrap the ladder in plastic wrap to protect it from moisture, dust, and dirt. Then, place the ladder in a box, allowing enough extra space for cushioning material. Fill the box with bubble wrap, foam, or other cushioning materials to absorb shocks and impacts.

Shipping

Once the ladder is properly packaged, it is ready to be shipped. Choose a reliable shipping carrier to ensure that the ladder is delivered on time and in good condition. Before shipping, make sure to secure the box with tape or straps to keep the contents from shifting during transit.
