Product Description

Product Description:

Scaffolding Plank - The Ultimate Solution for Construction Projects

Welcome to the world of durable and strong scaffolding planks - the perfect solution for all your construction needs. Our steel planks are designed to provide a safe and sturdy platform for workers to perform their tasks with ease. Made with the highest quality materials, our scaffolding planks are built to withstand the toughest conditions and provide unmatched safety and reliability.
Material: Steel

Our scaffolding planks are made from high-grade steel, ensuring maximum strength and durability. The use of steel makes our planks resistant to corrosion and damage, making it the ideal material for construction projects.
Surface: Pre-galvanized/hot Dip Galvanized/Spray Plastic

We offer three surface options for our steel planks - pre-galvanized, hot dip galvanized, and spray plastic. The pre-galvanized surface provides a layer of protection against rust and corrosion, while the hot dip galvanized surface offers maximum durability and resistance to harsh weather conditions. The spray plastic surface adds an extra layer of protection and makes the planks more slip-resistant.
Place of Shipment: China

All our scaffolding planks are manufactured and shipped from China. Our state-of-the-art production facility is equipped with the latest technology and machinery, ensuring the highest quality standards are met.
Length: Customized

We understand that every construction project is unique and requires specific lengths of scaffolding planks. That's why we offer customized lengths to meet the specific needs of our customers. Whether you need longer planks for larger projects or shorter planks for smaller ones, we've got you covered.
Packaging: Container

To ensure safe and convenient transportation, our scaffolding planks are packaged in containers. This not only protects the planks from any damage during transit but also makes it easier to unload and store them at the construction site.
Key Features: Steel Plank Ringlock, Galvanized Steel Scaffolding Plank, Pierced Steel Planking, Scaffolding Walk Board

Our steel planks are designed to be compatible with the popular ringlock system, making assembly and disassembly quick and easy. The use of galvanized steel ensures that our planks are resistant to rust and corrosion, providing long-lasting durability. The pierced steel planking design offers better traction and makes our planks suitable for use in wet or slippery conditions. The scaffolding walk board feature adds an extra layer of safety, allowing workers to move around with ease and perform their tasks without any hindrance.
Invest in our scaffolding planks and experience the convenience, safety, and reliability they offer. Contact us for more information or to place an order.

Features:

Product Name: Scaffolding Plank
Usage: Scaffolding
Material: Steel
Packaging: Container
Surface: Pre-galvanized/hot Dip Galvanized/Spray Plastic

Place of shipment: China

Key Features:

Steel plank with hook for easy installation and removal

Designed for use with ringlock scaffolding systems

Manufactured according to BS1139 standards for safety and durability

Available in pre-galvanized, hot dip galvanized, and spray plastic surface finishes

Packaged in a sturdy container for safe and convenient transport

Made of high quality steel for strength and stability

Shipped from China for efficient delivery

Applications:

Scaffolding Plank - Bythai

Brand Name: Bythai
Model Number: BM205
Place of Origin: China
Minimum Order Quantity: 1000
Price: 4.5-8.5
Packaging Details: In bundles
Delivery Time: 10-15
Payment Terms: container, shipping
Material: Steel
Place of shipment: China
Length: Customized
Packaging: Container
Surface: Pre-galvanized/hot Dip Galvanized/Spray Plastic

Scaffolding plank is an essential component of scaffolding systems used in construction and maintenance projects. Bythai is a leading manufacturer of high-quality scaffolding planks, specifically designed to meet the demands of the construction industry. Our product, the BM205 scaffolding plank, is made of strong and durable steel, ensuring the safety and stability of workers on elevated platforms.

Our scaffolding planks are designed to be used in conjunction with the popular BS1139 steel plank ringlock scaffolding system. This system is widely used in construction projects due to its versatility, durability, and ease of assembly. The steel plank ringlock system offers a secure and stable platform for workers, making it an ideal choice for various applications.

The BM205 scaffolding plank is manufactured in China, under strict quality control measures, to ensure that it meets international standards. It is available in customized lengths, making it suitable for various types of projects. Our planks are pre-galvanized, hot dip galvanized or spray plastic coated, providing protection against corrosion and extending its lifespan.

With a minimum order quantity of 1000 planks, Bythai offers competitive pricing for our scaffolding planks. Our planks are bundled together for convenient shipping and can be delivered within 10-15 days of placing an order. We accept container and shipping payments, making it convenient for our customers to receive our products.

Our scaffolding planks can be used in a wide range of applications, including but not limited to:

Building construction

Bridge construction and maintenance

High-rise maintenance and repair

Industrial and commercial projects

And more

Bythai's BM205 scaffolding plank is a reliable and sturdy option for all your scaffolding needs. It provides a safe and stable platform for workers to perform their tasks efficiently. Contact us today to learn more about our product and to place your order.

Customization:

Bythai - BM205 Scaffolding Plank Customization Service

Brand Name: Bythai
Model Number: BM205
Place of Origin: China
Minimum Order Quantity: 1000
Price Range: $4.5 - $8.5
Packaging Details: In bundles
Delivery Time: 10-15 days

Choose Bythai for your scaffolding needs and enjoy a customized and high quality product at an affordable price.

Packing and Shipping:

Scaffolding Plank Packaging and Shipping

Packaging

1. Individual Packaging

The scaffolding plank will be packed with a plastic wrap to protect it from dust and dirt during transportation.

Each plank will be wrapped with a foam sheet to prevent any scratches or damages.

Finally, the plank will be packed in a strong cardboard box for added protection.

2. Bulk Packaging

For bulk orders, the scaffolding planks will be stacked and secured with metal bands.

The planks will then be covered with a plastic sheet to protect them from the elements.

Finally, the bulk package will be placed on a pallet and wrapped with plastic wrap for safe and secure transportation.

Shipping

Our scaffolding planks will be shipped via a reliable and trusted carrier service to ensure timely and safe delivery to our customers.

1. Domestic Shipping

For domestic orders, our planks will be shipped using ground transportation. Customers can expect their orders to arrive within 3-5 business days.

2. International Shipping

For international orders, our planks will be shipped via air or sea freight, depending on the customer's preference and budget. Delivery times will vary depending on the destination country.

3. Tracking and Delivery Confirmation

Customers will receive a tracking number and delivery confirmation via email once their order has been shipped. This will allow them to track their package and ensure a smooth and timely delivery.

4. Special Shipping Requests

If customers have any special shipping requests, such as expedited shipping or specific delivery instructions, they can contact us and we will do our best to accommodate their needs.

Thank you for choosing our scaffolding planks. We strive to provide high-quality products and efficient shipping services to meet all of our customers' needs.
