

Japanese Scaffold Accessories For High Performance Construction

Our Product Introduction

for more products please visit us on bythaiscaffold.com

Basic Information

- Place of Origin: china tianjin
- Brand Name: scaffolding coupler
- Certification: SGS
- Model Number: BM201
- Price: 4.5-8.5
- Packaging Details: In bundles
- Delivery Time: 15-25
- Payment Terms: TT/TC

Product Specification

- Application: Construction
- Color: Silver
- Name: Scaffolding Coupler
- MOQ: 1000
- Material: Steel
- Standard: EN74-1
- Feature: High Strength
- Surface Treatment: Galvanized
- Highlight: **Japanese Scaffold Accessories,
Construction Scaffold Accessories**

Product Description

Product Description:

Scaffolding Coupler - Product Overview

The Scaffolding Coupler is a vital component in the construction industry, used to connect scaffolding tubes together securely. Made from high-quality steel, our couplers are designed to provide maximum strength and durability, ensuring safety and stability on construction sites.

Material

The Scaffolding Coupler is made from premium-grade steel, ensuring superior strength and longevity. This material is chosen for its ability to withstand heavy loads and harsh environmental conditions, making it the ideal choice for construction projects of all sizes.

Package

Each Scaffolding Coupler is packaged in a strong and sturdy container, ensuring safe and efficient transportation. Our packaging also protects the couplers from any damage during transit, ensuring they arrive in perfect condition.

Name

As the name suggests, the Scaffolding Coupler is specifically designed for use in scaffolding systems. It is a crucial component that connects two scaffolding tubes together, providing a secure and stable structure for workers to perform their tasks.

Minimum Order Quantity (MOQ)

Our MOQ for Scaffolding Couplers is set at 1000 pieces. This quantity allows us to maintain high-quality standards and provide our customers with the best products for their construction needs.

Feature

The main feature of our Scaffolding Coupler is its high strength. Our couplers are designed and manufactured to withstand heavy loads and provide maximum stability. This feature ensures the safety of workers, making our couplers an essential component in any construction project.

Key Words

When it comes to coupler scaffolding, our Scaffolding Coupler stands out as one of the best in the market. Our focus on using high-quality materials and providing high strength couplers has made us a trusted supplier of scaffolding couplers. Our couplers are also known as scaffolding couplers and High-Quality British Couplers, emphasizing their strength and reliability.

Technical Parameters:

Property	Value
Name	Scaffolding Coupler
Color	Silver

Application	Construction
Material	Steel
Surface Treatment	Galvanized
Standard	EN74-1
MOQ	1000
Feature	High Strength
Package	Container
British-style Scaffold Connectors	Yes
Universal Scaffold Clamping Tools	Yes
British Scaffold Tube Clamps	Yes

Applications:

Scaffolding Coupler - Perfect Connector for Your Steel Structure Scaffold

Brand Name: Scaffolding Coupler

Model Number: BM201

Place of Origin: China Tianjin

Certification: SGS

Price: 4.5-8.5

Packaging Details: In bundles

Delivery Time: 15-25 days

Payment Terms: TT/TC

Material: Steel

Name: Scaffolding Coupler

Surface Treatment: Galvanized

Package: Container

Application: Construction

Are you looking for a reliable and durable connector for your steel structure scaffold? Look no further, because Scaffolding Coupler is here to meet all your needs!

What is Scaffolding Coupler?

Scaffolding Coupler is a type of connector specifically designed for steel structure scaffolds. It is made of high-quality steel material and has a galvanized surface treatment, making it strong, durable, and rust-resistant.

With its BS1139 standard couplings, Scaffolding Coupler provides a secure connection between scaffold tubes, ensuring the stability and safety of your construction site.

Why Choose Scaffolding Coupler?

High Quality: Made of high-quality steel material and galvanized surface treatment, Scaffolding Coupler is strong, durable, and rust-resistant.

SGS Certification: Scaffolding Coupler has been certified by SGS, guaranteeing its quality and safety.

Wide Range of Prices: Scaffolding Coupler is available at a range of prices from 4.5-8.5, making it suitable for various budget needs.

Convenient Packaging: Scaffolding Coupler is packaged in bundles, making it easy to transport and store.

Fast Delivery: With a delivery time of 15-25 days, Scaffolding Coupler ensures a timely and efficient delivery process.

Flexible Payment Terms: Scaffolding Coupler accepts payment through TT/TC, providing flexibility for customers.

Easy to Use: Scaffolding Coupler is designed for easy installation, making it suitable for both experienced and inexperienced construction workers.

Application of Scaffolding Coupler

Scaffolding Coupler is widely used in construction projects, especially in the following scenarios:

Building construction: Scaffolding Coupler is used to connect steel tubes and create a stable and safe working platform for construction workers.

Bridge construction: Scaffolding Coupler is used to support and connect steel beams during the construction of bridges.

Tunnel construction: Scaffolding Coupler is used to create a framework and support system for tunnel construction.

High-rise building maintenance: Scaffolding Coupler is used to create a safe and stable platform for maintenance workers to access and work on high-rise buildings.

In Conclusion

Scaffolding Coupler, with its strong and durable steel material, galvanized surface treatment, and BS1139 standard couplings, is the perfect connector for your steel structure scaffold. With its wide range of prices, convenient packaging, fast delivery, and flexible payment terms, Scaffolding Coupler is your reliable and efficient choice for all construction projects. Trust Scaffolding Coupler to provide a strong and safe connection for your steel structure scaffold. Order now and experience its benefits for yourself!

Customization:

Scaffolding Coupler

Brand Name: Scaffolding Coupler

Model Number: BM201

Place of Origin: China (Tianjin)

Certification: SGS

Price: 4.5-8.5

Packaging Details: In bundles

Delivery Time: 15-25 days

Payment Terms: TT/TC

Feature: High Strength

Name: Scaffolding Coupler

Application: Construction

Material: Steel

Surface Treatment: Galvanized

Our Scaffolding Coupler is a highly customizable product that meets all your scaffolding needs. Our manual scaffold connection tools are designed to provide a safe and secure connection between scaffolding tubes, ensuring the stability and durability of your construction projects.

As a leading manufacturer in the scaffolding industry, we pride ourselves on providing high-quality Japanese scaffold accessories that are reliable and long-lasting. Our Scaffolding Coupler, model number BM201, is no exception.

Manufactured in China (Tianjin), our Scaffolding Coupler is certified by SGS, ensuring its quality and safety. It is competitively priced at 4.5-8.5, making it affordable for all your construction needs.

The packaging details for our Scaffolding Coupler are in bundles, making it easy to transport and store. With a delivery time of 15-25 days, you can expect a quick turnaround for your orders. We accept payment terms of TT/TC, providing you with flexibility and convenience.

Our Scaffolding Coupler is specially designed for its high strength, making it suitable for heavy-duty construction projects. The material used is steel, ensuring its durability and reliability. It is also surface treated with galvanization, making it resistant to corrosion and rust. When it comes to scaffolding accessories, our Scaffolding Coupler is a top choice for construction companies. Its superior quality and features make it a must-have for any construction project. Contact us today to learn more and place your order.

Packing and Shipping:

Packaging and Shipping of Scaffolding Coupler

Our Scaffolding Coupler is carefully packaged to ensure safe and secure delivery to our customers. Each coupler is individually wrapped and placed in a sturdy cardboard box for protection during transportation.

We offer different packaging options to suit the specific needs of our customers. Our standard packaging includes 50 couplers per box, but we can also accommodate custom packaging requests.

All our packaging materials are made from recyclable materials, in line with our commitment to sustainability.

Shipping

We ship our Scaffolding Couplers worldwide to meet the needs of our international customers.

For domestic orders, we offer various shipping options including standard ground shipping, expedited shipping, and overnight delivery.

Our international customers can choose from a range of shipping methods based on their location and delivery time requirements.

We work with trusted shipping partners to ensure timely and efficient delivery of our products. All orders are carefully tracked and insured to provide our customers with peace of mind.

For bulk orders, we offer discounted shipping rates to help our customers save on shipping costs.

Once your order has been shipped, you will receive a tracking number to monitor the delivery status of your package.

Thank you for choosing our Scaffolding Coupler. We strive to provide high-quality products and excellent service to our customers.
