# Steel Frame System Structuring High Load Capacity And Spray Plastic Coating

Our Product Introduction

## Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Certification: SGS
- Model Number: BM205
- Price: 4.5-8.5
- Packaging Details: In bundles
- Delivery Time: 10-15
- Payment Terms: TT/TC

## Product Specification

- Shipping Origin: China
- Arrival Time: 10-15
- Material: Q235
- Color: Steel/Spray Plastic
- Size: Customized
- Load Capacity: High
- Highlight: **Spray Plastic Coating Frame System**, **Q235 Steel Frame System Structuring**, **Plastic Coating Frame Scaffolding System**

## Product Description

### Steel Frame System Structuring High Load Capacity And Spray Plastic Coating

### Product Description:

Frame System Scaffolding: A Comprehensive Solution for Efficient and Safe Construction

Frame System Scaffolding is a versatile and customizable scaffolding solution that provides support and access for construction projects. It is specially designed to meet the demands of modern construction sites, providing a safe and efficient working platform for workers to carry out their tasks.
Size: Customized to Suit Your Needs

One of the key advantages of Frame System Scaffolding is its customizable size. We understand that every construction project is unique and requires a specific scaffolding system. With our Frame System Scaffolding, you can customize the size to suit your project's specific requirements, ensuring maximum efficiency and safety.
Material: High-Quality Q235 Steel

Our Frame System Scaffolding is made with high-quality Q235 steel, known for its strength, durability, and resistance to corrosion. This ensures that our scaffolding can withstand heavy loads and harsh weather conditions, providing a safe and sturdy working platform for your construction team.
Arrival Time: Short Lead Time of 10-15 Days

We understand the importance of timely completion of construction projects. That's why we strive to provide our customers with a short lead time of 10-15 days for the arrival of our Frame System Scaffolding. This ensures that your project stays on schedule without any delays or setbacks.
Color: Steel or Spray Plastic Finish

### Features:

Product Name: Frame System Scaffolding
Arrival time: 10-15 days
Load Capacity: High
Size: Customized
Shipping origin: China
Material: Q235
**Product Features:**
Highly durable scaffolding frame system
Designed for quick and easy assembly
Can support heavy loads with high load capacity
Custom sizes available according to project requirements
Made from strong and sturdy Q235 material
Manufactured in China and shipped worldwide
Can be used for various construction projects
Provides stable and safe working platform for workers
Can be used for both indoor and outdoor applications
Compatible with other scaffolding components
Suitable for use in Portal Frame Shoring and Portal Frame Scaffold Beams

### Technical Parameters:

| | |
|---|---|
| **Product Name** | Frame System Scaffolding |
| **Material** | Q235 |
| **Size** | Customized |
| **Color** | Steel/Spray Plastic |
| **Arrival Time** | 10-15 days |
| **Load Capacity** | High |
| **Shipping Origin** | China |
| **Key Features** | Frame scaffolding system, American Frame, Portal Frame Scaffold Erection |

## Applications:

Frame System Scaffolding - Bythai BM205

The Bythai BM205 is a high-quality frame system scaffolding that is perfect for various construction and maintenance projects. This scaffold mobile frame is built with durability and convenience in mind, making it a reliable choice for any construction site.
Product Description

The Bythai BM205 is a walk through scaffold system that allows for easy access and movement around the construction site. It is made

with high-quality Q235 material, ensuring its strength and stability. The scaffold mobile frame is available in both steel and spray plastic colors, providing customers with options to choose from according to their preferences and needs.

Application and Scenario

The Bythai BM205 is suitable for a wide range of construction and maintenance projects, such as building construction, bridge construction, and renovation works. It is also commonly used in industrial plants, shipyards, and power plants. This scaffold mobile frame can be used both indoors and outdoors, making it a versatile and essential tool for any construction project.

Imagine a scenario where a construction team is working on a high-rise building. They need to access different areas of the building at different heights, and the Bythai BM205 scaffold mobile frame provides them with a safe and convenient solution. The team can easily assemble and move the scaffolding to different levels, allowing them to work efficiently and effectively.

Product Features

**High Load Capacity:** The Bythai BM205 has a high load capacity, making it suitable for heavy-duty construction works.

**Customizable Size:** The size of the scaffold mobile frame can be customized according to the specific needs of the project.

**SGS Certified:** This product is SGS certified, ensuring its quality and safety standards.

**Easy to Assemble:** The Bythai BM205 is designed for easy and quick assembly, saving time and effort for the construction team.

**Durable Material:** Made with Q235 material, this scaffold mobile frame is strong, stable, and long-lasting.

**Multiple Color Options:** Customers can choose between steel and spray plastic colors to suit their preferences and needs.

Packaging and Delivery

The Bythai BM205 is packaged in bundles, ensuring its safety and easy transportation. It has a delivery time of around 10-15 days, depending on the location. Customers can choose between TT (Telegraphic Transfer) or TC (Telegraphic Credit) as their preferred payment method.

Price

The Bythai BM205 scaffold mobile frame is priced at  4.5-8.5, making it an affordable and cost-effective choice for construction companies and contractors.

Arrival Time

The Bythai BM205 can be delivered to the construction site within 10-15 days, making it a convenient and efficient choice for urgent projects.

In conclusion, the Bythai BM205 is a reliable, durable, and versatile frame system scaffolding that is suitable for a wide range of construction and maintenance projects. With its high load capacity, customizable size, and easy assembly, it is an essential tool for any construction site. Order now and experience the convenience and efficiency of the Bythai BM205!
