Sturdy And Versatile Steel Plank Scaffold For All Scaffolding Needs

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Certification: SGS,ISO
- Model Number: BM205
- Minimum Order Quantity: 1000
- Price: 4.5-8.5
- Packaging Details: In bundles
- Delivery Time: 10-15
- Payment Terms: container, shipping

Product Specification

- Place Of Shipment: China
- Surface: Pre-galvanized/hot Dip Galvanized/Spray Plastic
- Packaging: Container
- Length: Customized
- Material: Steel
- Usage: Scaffolding
- Highlight: **ISO Steel Plank Scaffold**, **Industrial Steel Plank Scaffold**, **Customized Adjustable Scaffold Plank**

Product Description

Product Description:

Scaffolding Plank - Quality Steel Planks for Scaffolding

Scaffolding Plank is a high-quality steel plank specially designed for scaffolding structures. Made from durable steel material, it provides a strong and stable platform for workers to perform construction and maintenance tasks at heights.
Usage

Scaffolding Plank is primarily used in the construction industry for scaffolding structures. It serves as a safe and reliable platform for workers to access different levels of a building or structure. With its strong and sturdy design, it can withstand heavy loads and provide a stable working environment.
Place of Shipment

Scaffolding Plank is manufactured in China, known for its advanced steel production technology and high-quality materials. Our factory is located in an industrial city with convenient transportation, making it easy for us to ship our products to different parts of the world.
Material

Scaffolding Plank is made from high-quality steel, ensuring its durability and strength. The steel undergoes a strict quality control process to ensure its load-bearing capacity and resistance to wear and tear. It is also resistant to corrosion, making it suitable for use in different weather conditions.
Length

Scaffolding Plank can be customized to meet the specific needs of your project. We offer various lengths to accommodate different scaffolding structures and construction requirements. Our team can work with you to determine the best length for your project to maximize efficiency and safety.
Packaging

Scaffolding Plank is packaged in containers to ensure safe and secure transportation. Our packaging is designed to protect the planks from damage during shipping, ensuring that they arrive at your location in perfect condition. This also makes it easy to handle and store the planks on-site.
Key Words

Steel plank for scaffold

Pierced steel planking

Steel plank scaffold

Features:

Product Name: Scaffolding Plank

Usage: Scaffolding

Packaging: Container

Surface: Pre-galvanized/hot Dip Galvanized/Spray Plastic

Material: Steel

Length: Customized

Key Features:

Strong and durable steel plank for use in scaffolding systems

Designed for use with ringlock scaffolding systems

Available in pre-galvanized, hot dip galvanized, or spray plastic surface finishes for added protection against rust and corrosion

Can be customized to meet specific length requirements

Compatible with steel frame for decking plank to create stable and safe working platforms

Easy to assemble and disassemble, making it convenient for transport and storage

Suitable for various construction and industrial applications

Technical Parameters:

Key	Value
Packaging	Container
Material	Steel
Surface	Pre-galvanized/hot Dip Galvanized/Spray Plastic
Usage	Scaffolding
Length	Customized
Place of shipment	China
Product name	Galvanized Steel Scaffolding Plank
Model	Steel Plank 230
Material type	Galvanized Steel
Surface treatment	Pre-galvanized/hot Dip Galvanized/Spray Plastic
Usage	Scaffolding, construction
Length	Customized (according to customer's requirements)
Place of origin	China
