# Tensile Galvanised Scaffold Tube En39 Certified For Sturdy Scaffolding Construction

## **Basic Information**

- Place of Origin:
- Brand Name:
- Certification: SGS ISO
- Model Number: BT01
  Minimum Order 1000
- Quantity:
- Price: \$10-\$85
- Packaging Details: In bundles
- Delivery Time: 7-15 days
  Payment Terms: TT/LC
- Supply Ability: 1000tons per month

### Product Specification

	Tensile Galvanised Scaffold Tube, En39 Galvanised Scaffold Tube
Highlight:	Sturdy Construction Galvanised Scaffold Tube,
Name:	Galvanised Scaffold Tube
• Diameter:	48.3mm
Weight:	6.4kg/m
Surface Treatment:	Galvanised
Yield Strength:	245N/mm2
Application:	Scaffolding
Tensile Strength:	420N/mm2
• Standard:	EN39

#### **Product Description:**

The Galvanised Scaffold Tube is a high-strength, durable metal tubing designed specifically for use in scaffolding applications. This robust product is manufactured from galvanised steel, providing a sturdy and reliable solution for construction environments where safety and stability are of utmost importance. The galvanisation process ensures that the steel tube is coated with a protective layer of zinc, offering enhanced resistance to corrosion and the elements, which makes it an ideal choice for outdoor or industrial settings.

### **Technical Parameters:**

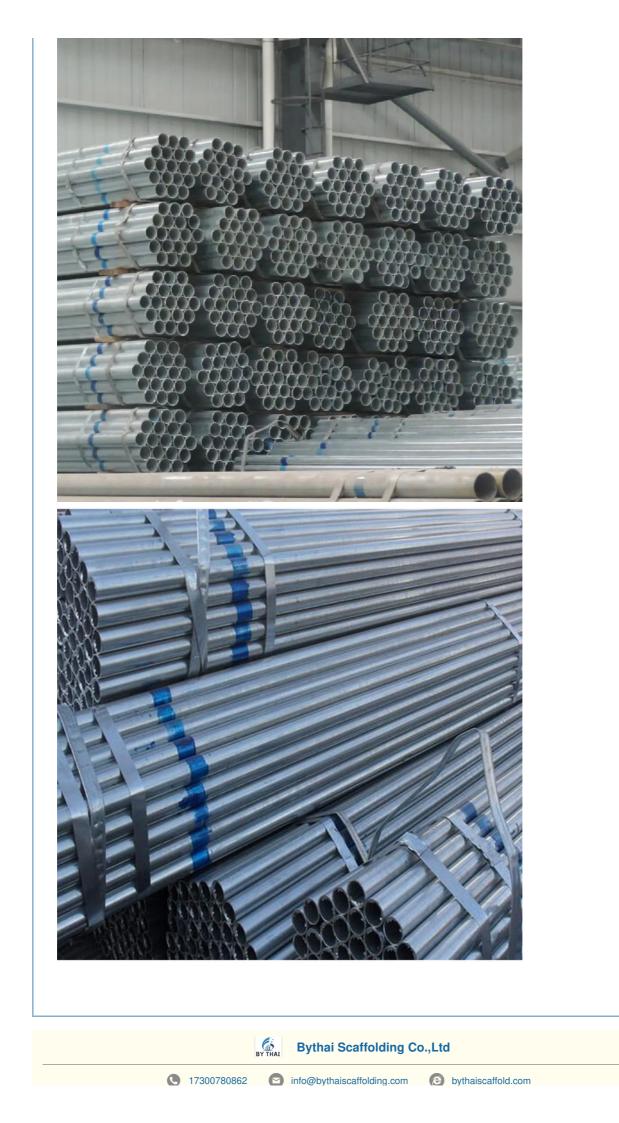

Attribute	Details	
Name	Galvanised Scaffold Tube	
Yield Strength	245N/mm <sup>2</sup>	
Tensile Strength	420N/mm <sup>2</sup>	
Weight	6.4kg/m	
Material	Galvanised Steel	
Thickness	3.2mm	
Application	Scaffolding	
Surface Treatment	Galvanised	
Diameter	48.3mm	
Standard	EN39	

#### **Customization:**

Brand Name: Bythai Scaffolding Model Number: BT01 Place of Origin: China Certification: SGS Minimum Order Quantity: 1000 Price: \$10-\$85 Packaging Details: In bundles Delivery Time: 7-15 days Payment Terms: TT/LC Supply Ability: 1000tons per month Surface Treatment: Galvanised Thickness: 3.2mm Yield Strength: 245N/mm2 Standard: EN39 Application: Scaffolding

Our **galvanised scaffold tubes** are designed for high-performance and durability. Manufactured by Bythai Scaffolding, these tubes are ideal for a variety of scaffolding applications. The **scaffold aluminum tube** model BT01 is crafted with precision, adhering to the EN39 standard, and ensures a yield strength of 245N/mm2. With a **galvanized pipe** surface treatment, our tubes offer superior resistance to corrosion, making them a reliable choice for your scaffolding needs.
