Steel Q235 High Load Capacity Frame System Scaffolding With Quick Time

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Bythai
- Certification: SGS ISO
- Model Number: BT205
- Minimum Order Quantity: 1000
- Price: 10.5-35.5
- Packaging Details: In bundles
- Delivery Time: 10-15
- Payment Terms: TT/TC

Product Specification

- Color: Steel/Spray Plastic
- Size: Customized
- Arrival Time: 10-15
- Material: Q235
- Shipping Origin: China
- Load Capacity: High
- Highlight: **Q235 Frame System Scaffolding**, **High Load Capacity Frame System Scaffolding**, **Quick Time Frame System Scaffolding**

Product Description

Product Description:

The Frame System Scaffolding is a type of portal frame shoring system that is easy to assemble and disassemble, making it a popular choice for construction workers. This h scaffold system is also designed to be lightweight, making it easy to transport and move around the construction site. The scaffolding system is shipped from China and typically takes 10-15 days to arrive at the construction site.
The Frame System Scaffolding has a high load capacity, which makes it suitable for use in heavy-duty construction projects. The scaffolding system is designed to provide a stable and secure platform for workers to perform their tasks safely. The scaffolding system is also designed to be easily adjustable, making it possible to reach different heights and angles in the construction project.
The Frame System Scaffolding is a versatile and flexible scaffolding system that can be used for a variety of construction projects. This scaffolding system is ideal for use in construction projects that require a high degree of safety and stability. The scaffolding system is also designed to be easily customizable, making it possible to tailor the system to meet the specific needs of the construction project.

Features:

Product Name: Frame System Scaffolding
Material: Q235
Size: Customized
Shipping origin: China
Color: Steel/Spray Plastic
Arrival time: 10-15
Features:
H frame design for stability and support
Durable Q235 steel construction
Customizable size options for versatility
Available in steel or spray plastic colors
Ships from China with an arrival time of 10-15 days

Technical Parameters:

Scaffold Portal Frame System	H Frame
Load Capacity	High
Color	Steel/Spray Plastic
Size	Customized
Arrival Time	10-15 days
Shipping Origin	China
Material	Q235

Applications:

Designed and manufactured in China, this product is certified by SGS ISO, ensuring its quality and reliability. The minimum order quantity for this product is 1000 units, and it is priced between 10.5-35.5, depending on the size and material chosen. The product is packaged in bundles and has a delivery time of 10-15 days, with payment accepted through TT/TC.
The Frame System Scaffolding product is constructed from Q235 steel, ensuring its strength and durability. The product is available in both steel and spray plastic coatings, allowing for customization and color options. The arrival time of the product is also 10-15 days from its shipping origin in China.
The versatility of this product allows it to be used in various product application occasions and scenarios. It can be used for building construction, maintenance, and renovation. The scaffold mobile frame is ideal for outdoor and indoor projects, such as painting, welding, and plastering. The Frame System Scaffolding product can be customized to fit any job site, allowing for safe and efficient work.
The Frame System Scaffolding product is perfect for those who require a safe and efficient work environment. Its easy-to-use design allows for quick setup and dismantling, saving time and increasing productivity. The product can also be easily transported to and from job sites, making it the perfect choice for contractors and construction professionals.
